

Plug'n Pump

Easy and safe control over your chemical application

Dual Bottle System

Dilute at point of application

Pump-N-Plug is the world's most innovative chemical applicator, being able to accurately dispense the required dosage at any location.

With a complete housekeeping and kitchen range and the choice of spray or foam, you have a solution for every cleaning scenario.

- Direct and automatic dilution
- Mobile automatic dosing
- Water cartridge fillable anywhere
- Controlled cost and consumption
- No dispensers required
- Increase productivity
- Low cost-in-application
- Lasting effectiveness of chemicals
- Ready for use whenever and where ever needed
- Safe and hygienic no product spillage

Housekeeping

H18 - NEUTRAL DETERGENT

GENERAL FLOOR MOPPING

Specially designed to remove soil from pH sensitive surfaces such as polymer coated flooring. Its safe and easy characteristics with its economical price tag, makes it the cleaner of choice for numerous cleaning jobs.

H25 - MULTI PURPOSE CLEANER

SPRAY & WIPE CLEANING OF ALL HARD SURFACES

Boasts outstanding grease cutting ability whilst cleaning without any residue, apart from a surface active anti-bacterial agent. It combines the advantages of a number of different cleaning principles to make it an excellent all-rounder.

H33 - BATHROOM CLEANER

GENERAL BATHROOM CLEANING

Pleasantly perfumed, viscous, acid-based liquid cleaner and sanitizer for washroom cleaning. It effectively cleans, descales, destains, sanitises and deodorises porcelain and stainless steel toilet bowls and urinals, without causing corrosion. Its powerful cleaning and destaining action, together with its thick viscosity make it a favourite for washroom deep cleaning and maintenance.

H36 - ENZYME BATHROOM CLEANER

GENERAL BATHROOM CLEANING

A superb enzyme based bathroom cleaner, ideal for removing all soap scum and stubborn stains, while breaking down odour bacteria at the same time. Its synergised blend of bacteria combined with an odour counteractant accelerates degradation of organic matter. Suitable for all bathroom cleaning.

H39 - BATHROOM CLEANER

GENERAL BATHROOM CLEANING

Mildly alkaline, clean-all bathroom cleaner designed for use in bathrooms, change rooms in all institutional and domestic settings. Formulated to provide maximum removal of soap scum and typical soiling from tile, porcelain and glass surfaces.

H56 - GLASS CLEANER

CLEANING OF WINDOWS, MIRRORS & LAMINATES

High quality spray-on, wipe off, hard surface cleaner. Highly effective for cleaning windows, mirrors, tiles, etc. Quickly emulsifies oil residues, soil deposits and other organic stains, leaving a clean non-streak finish.

H70 - ODOUR ELIMINATOR

ODOUR CONTROL & GENERAL ROOM FRESHENING

An effective odour eliminator for the health and aged care environments. By matching the molecule structure of the odour, the odour becomes neutralised. Can be applied directly as a space spray or added with water for cleaning solutions.

Kitchen

K17 - KITCHEN FLOOR CLEANER

MOPPING / SCRUBBING OF FOOD PREP AREA FLOORS

An active enzyme based formula to break down all types of kitchen grease. It attacks the grease both during and after application and eliminates this deep down cause of slippery floors.

K21 - MULTIPURPOSE CLEANER

GENERAL KITCHEN AREA CLEANING

Effective degreasing detergent. Proven anti-bacterial agent to produce a real performer that will find a vast variety of applications in any establishment. Very suitable for use in kitchens and food preparation areas.

K44 - QUAT SANITISER

SANITISING OF BENCHES ETC. IN FOOD PREP AREAS

Specially prepared sanitizer for use in food preparation areas such as institutional kitchens, catering establishments, butcheries, food bars and eateries. It is based on benzalkonium chloride which provides effective microbiocidal activity at recommended dilutions whilst imparting no taste or tainting of food.

K56 - CHLORINE SANITISER

WASHING OF FRUIT & VEGETABLES

Sodium hypochlorite solution used as a vegetable and salad sterilant. Ideal for the food and hospitality industry.

K91 - OVEN/GRILL CLEANER

CLEANING OF OVEN AND GRILL

A non-caustic, low toxicity, low VOC, non-butyl, oven and grill cleaning formula which provides outstanding removal of tough carbons, fats, oils and grease. Ideal for use on industrial cooking and baking equipment. It's low toxic profile dramatically reduces OH&S risks, improves productivity and provides for simpler application.

Simple as....

1. Fill water bottle, plug into collar then lock the tab.
2. Choose your required product, plug into collar then lock tab.
3. Then, PUMP.

No mess, no fuss!

**Plug'n
Pump**

Plug'n Pump

Dosing Bottles

3 simple steps to get an accurate dose every time

Step 1

Turn the bottle upside down to fill dosing chamber.

Step 2

Unscrew the cap.

Step 3

Pour out the liquid.

Adjustable dosage

Tilt the bottle to get the required dosage.

The innovative dosing bottle for various applications enables the user to dose a specific amount of liquid in 3 steps.

- Automatically levels the liquid in the dosing chamber to the correct measured amount
- User friendly, only 1L of concentrate - easy to store or carry anywhere
- Controlled Dosage - You must refit lid to gain another dosage.
- Safety Cap - Child Proof
